

The Carlon Group

INCORPORATED

What we do

We help you sell. The Carlon Group provides you with customized marketing content and the e-mail distribution to keep your business “top of mind” with clients and prospects.

How we do it

We produce local economic reports identifying the trends and business conditions in your market. The reports are specific to your market and customized for your company.

Our monthly reports are then distributed to your database via a customized e-mail marketing campaign. From producing the content to connecting with clients, we manage the entire process for you.
